

Dr. A.P.J. Abdul Kalam
Former President of India

10, Rajaji Marg
New Delhi-110011

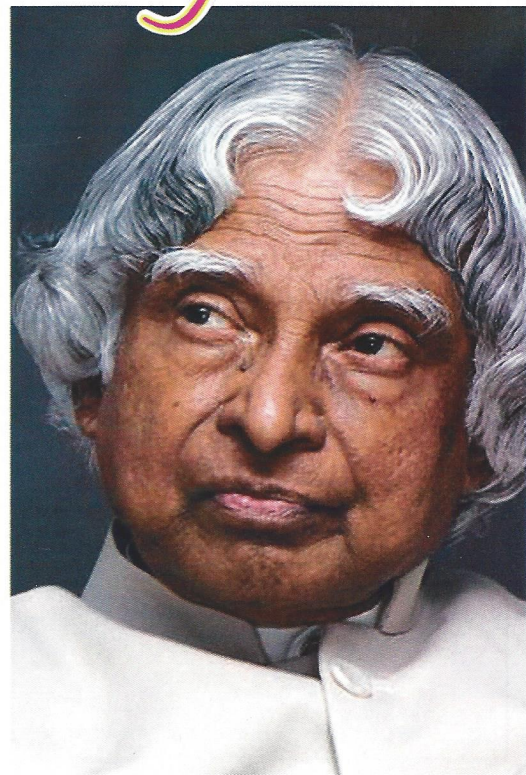

Message

I am happy to learn that Rev. Fr. Thomas Felix CMI has completed 50 Years of Priest hood. Rev. Fr. Felix has dedicated 45 of these 50 years to his wonderful efforts to bring smiles in the faces of special children and their families from different regions of India and even many other countries also.

He has created a unique system of education for total growth and development of mentally challenged children ie 3Cs Concept (Comprehension, Competency and Creativity) using shapes and colours. His 3Cs concept had earned him national and international recognitions. He believes that "Less ability does not make a lesser human being".

I have interacted with Father and his students on several occasions and have found him a selfless and good human being working for the noble cause of the special children and their total growth and development.

I wish him all success in this noble mission.

APJ ABDUL KALAM
